DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Mushiage et al (US patent 5,933,443).

With respect to claims 1-5, 11-29 and 35-38 figs. 1-2 show a semiconductor laser comprising an n-type lower cladding layer that has n-type conductivity (2), an active layer (3) formed on top of the n-type cladding layer, a p-type upper cladding base layer (4) that is formed on the top of the active layer and has p-type conductivity, a current blocking layer (5) that is formed on specified parts of an upper surface of the p-type cladding base layer and substantially has n-type conductivity, a p-type second upper cladding (6) is consider as a buried cladding layer wherein the current blocking layer (5) has at least two region having different concentrations of n-type carriers hereafter "N1" (5a) and "N2" (5b) and the current blocking layer (5) having lower reflective index than the cladding base layer (4) and the buried cladding layer (6), note col. 3 line 10 to col. 5 line 67. Since Mushiage discloses a lower n-type cladding layer (2), an active layer (3), a p-type upper cladding (4), a current blocking (5), a p-type second upper cladding layer (6) and the characteristics of the material, it is inherent to have result as recited in the claims.

Art Unit: 2828

With respect to claims 6-10, 30-34 and 39-43 col. 1 line 28 to col. 6 line 35 show the working range as recited in the claims.

Response to Arguments

2. Applicant's arguments with respect to claims 1-43 have been considered but are moot in view of the new ground(s) of rejection.

Citation Of The Pertinent References

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patent to Hashimoto et al (US patent 6,411,637) discloses semiconductor laser and method of manufacturing the same.

The patent to Kadowaki et al (US patent 5,146,467) discloses semiconductor laser device.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2828

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
